QUARTERLY JOURNAL

OF THE

Royal Meteorological Society

Editor :

H. CHARNOCK

Vol. **95**, 1969

LONDON :
ROYAL METEOROLOGICAL SOCIETY
49 CROMWELL ROAD, LONDON, S.W.7
1969

CONTENTS OF VOLUME **95**

PAGE

J. T. HOUGHTON—Absorption and emission by carbon-dioxide in the mesosphere .. 1

H. B. KRUGER—General and special approaches to the problem of objective analysis of meteorological variables 21

R. J. MURGATROYD—Estimations from geostrophic trajectories of horizontal diffusivity in the mid-latitude troposphere and lower stratosphere 40

M. A. ABBAS and J. LATHAM—The disintegration and electrification of charged water drops falling in an electric field 63

P. A. TAYLOR—On wind and shear stress profiles above a change in surface roughness 77

R. MURRAY, A. E. PARKER and P. COLLISON—Some computations of meridional flow, angular momentum and energy in the atmosphere based on IGY data for latitude 30°N 92

Y.-H. PAO—Inviscid flows of stably stratified fluids over barriers 104

G. W. BRIER and J. SIMPSON—Tropical cloudiness and rainfall related to pressure and tidal variations 120

D. J. DAVIES and D. R. DAVIES—Some numerical experiments using a two-level general circulation model 148

S. RAMACHANDRAN—A theoretical study of cup and vane anemometers 163

Shorter Contributions—

J. J. DELUISI—A study of the effect of haze upon Umkehr measurements 181

D. N. AXFORD—Divergence measurements from an aircraft 188

R. J. MURGATROYD—A note on the contributions of mean and eddy terms to the momentum and heat balances of the troposphere and lower stratosphere 194

Discussions—

J. C. DRAKE—Electrification accompanying the melting of ice particles (*Q.J.*, **94**, p. 176) 203

C. M. STEVENSON—An improved Millipore filter technique for measuring the concentrations of freezing nuclei in the atmosphere (*Q.J.*, **94**, p. 35) 203

P. ROBERTS and J. HALLETT—A laboratory study of the ice nucleating properties of some mineral particulates (*Q.J.*, **94**, p. 25) 204

G. R. R. BENWELL and M. S. TIMPSON—Further work with the Bushby-Timpson 10-level model (*Q.J.*, **94**, p. 12) 205

G. R. R. BENWELL and F. P. BRETHERTON—A pressure oscillation in a 10-level atmospheric model (*Q.J.*, **94**, p. 123) 205

Proceedings at meetings of the Society 206

Reviews—

Atmospheric electricity, J. A. Chalmers (W.C.A.H.); *Cloud studies in colour*, R. Scorer and H. Wexler (R.P.P.); *Der Aufbau der Erdatmosphäre*, H. Faust (G.A.B.); *Die Schwankungen und Pendelungen des Klimes in Europa seit dem Beginn der regelmässigen Instrumenten-Beobachtungen*, H. von Rudloff (G.M.); *Histoire du climat depuis d'an mil*, E. Le Roy Ladurie (G.M.); *Magarország Éghajati Atlasza, II, Kötet, Adattár Klima-Atlas von Ungarn, Band II* (F.V.R.) 208

Obituary Notice 212

F. P. BRETHERTON—Momentum transport by gravity waves 213

S. B. IDSO, D. G. BAKER and B. L. BLAD—Relations of radiation fluxes over natural surfaces 244

J. W. KIDSON, D. G. VINCENT and R. E. NEWELL—Observational studies of the general circulation of the Tropics: long term mean values 258

K. A. BROWNING and T. W. HARROLD—Air motion and precipitation growth in a wave depression 288

R. E. NEWELL and M. E. RICHARDS—Energy flux convergence patterns in the lower and middle stratosphere during the IQSY 310

H. R. PHILLPOT—Antarctic stratopheric warming reviewed in the light of 1967 observations 328

J. LATHAM—Experimental studies of the effect of electric fields on the growth of cloud particles 349

J. FINDLATER—A major low-level air current near the Indian Ocean during the northern summer 362

S. CHAPMAN—The lunar and solar semidiurnal variations of barometric pressure at Copenhagen, 1884-1949 (66 years) 381

Shorter Contributions—

J. VANIER and D. I. WARDLE—The effects of spectral resolution on total ozone measurements 395

J. FINDLATER—Interhemispheric transport of air in the lower troposphere over the western Indian Ocean 400

D. C. THOMPSON—The coreless winter at Scott Base, Antarctica 404

W. NORDBERG, J. CONAWAY and P. THADDEUS—Microwave observations of sea state from aircraft 408

Discussion Meeting, 20 March 1968 on 'Atmospheric conditions and bird and insect movement'—

K. WILLIAMSON—Weather systems and bird movements 414

R. C. RAINEY—Effects of atmospheric conditions on insect movement 424

G. W. HURST—Insect migrations to the British Isles 435

Proceedings at meetings of the Society 440

Reviews—

Measurement and estimation of evaporation and evapotranspiration (H.L.P.); *London weather*, J. H. Brazell (L.C.W.B.); *Earth's particles and fields*, B. M. McCormac (G.W.H.); *Winds and turbulence in stratosphere, mesosphere and ionosphere*, K. Rawer (Ed.) (R.M.G.); *Meteorology and atomic energy 1968*, D. H. Slade (Ed.) (F.P.) 444

Obituary Notice 448

B. J. MASON—Some outstanding problems in cloud physics – the interaction of microphysical and dynamical processes 449

J. LATHAM and C. D. STOW—Airborne studies of the electrical properties of large convective clouds 486

E. C. KUNG and S. SOONG—Seasonal variation of kinetic energy in the atmosphere .. 501

T. OGAWA and M. BROOK—Charge distribution in thunderstorm clouds 513

M. P. PATERSON and K. T. SPILLANE—Surface films and the production of sea-salt aerosol 526

D. R. PICK and J. T. HOUGHTON—Measurements of atmospheric infra-red emission with a balloon-borne multifilter radiometer 535

D. ATLAS, R. TATEHIRA, R. C. SRIVASTAVA, W. MARKER and R. E. CARBONE—Precipitation-induced mesoscale wind perturbations in the melting layer 544

E. W. PETERSON—Modification of mean flow and turbulent energy by a change in surface roughness under conditions of neutral stability 561

J. M. CRADDOCK and C. R. FLOOD—Eigenvectors for representing the 500 mb geopotential surface over the Northern Hemisphere 576

T. N. KRISHNAMURTI—An experiment in numerical prediction in equatorial latitudes .. 594

J. R. SCOTT—Some average wave lengths on short-crested seas 621

Shorter Contributions—

G. W. PALTRIDGE—A net long-wave radiometer 635

A. K. BETTS and J. F. R. MCILVEEN—The energy formula in a moving reference frame 639

D. A. RIJKS—Evaporation from a papyrus swamp 643

Correspondence—
F. Kenneth Hare—The Arctic 650
G. W. Paltridge; R. A. Hamilton and R. H. Collingbourne—A note on the calculation of aerosol absorption from solar radiation measurements 652
J. A. Businger—Note on the critical Richardson number(s) 653

Discussions—
A. C. Chamberlain—Transport of gases to and from surfaces with bluff and wave-like roughness elements (*Q.J.*, **94**, p. 318) 655
A. S. Thom—The exchange of momentum, mass, and heat between an artificial leaf and the airflow in a wind-tunnel (*Q.J.*, **94**, p. 44) 656

Report of the Council for 1968 658

Proceedings at meetings of the Society 670

Reviews—
Exploring the atmosphere, G. M. B. Dobson (R.J.M.); *Die Wissenschaft vom Wetter*, H. Reuter (M.K.M.) 674

Corrigendum 674

M. J. Lighthill—Unsteady wind-driven ocean currents 675

F. Wippermann, L. Berkofsky and A. Szillinsky—Numerical experiments on the formation of a tornado funnel under an intensifying vortex 689

K. O. L. F. Jayaweera and R. E. Cottis—Fall velocities of plate-like and columnar ice crystals 703

T. W. Harrold and K. A. Browning—The polar low as a baroclinic disturbance .. 710

W. C. Macklin and G. S. Payne—The spreading of accreted droplets 724

C. J. R. Garrett—Atmospheric edge waves 731

Shorter Contributions—
F. P. Bretherton—Lamb waves in a nearly isothermal atmosphere 754
J. E. Simpson—A comparison between laboratory and atmospheric density currents .. 758
B. Haurwitz and A. D. Cowley—The lunar semidiurnal variations at Hongkong and Uppsala 766
F. B. A. Giwa—The influence of vertical variation of zonal wind on the response curve in atmospheric oscillations 771

Discussion Meeting, 18 June 1969 on ' Meteorological problems of supersonic aircraft '—
J. C. Chaplin—Atmospheric effects on the supersonic transport 779
J. Burnham—Atmospheric turbulence at supersonic transport cruise altitudes .. 782
A. F. Crossley—The atmospheric environment of supersonic transport aircraft .. 784
L. Sugden—Provision of meteorological service for supersonic transport operations .. 789
General Discussion 794

Correspondence—
C. D. Stow, P. V. Hobbs and W. D. Scott—The charging of ice surfaces by natural ice particles 797

Discussions—
R. F. MacKinnon—The effects of winds on acoustic-gravity waves from explosions in the atmosphere (*Q.J.*, **93**, p. 436); Microbarographic oscillations produced by nuclear explosions as recorded in Great Britain and Eire (*Q.J.*, **94**, p. 156) 801
F. B. A. Giwa—Response curves in the theory of atmospheric oscillations (*Q.J.*, **94**, p. 192) 801

Proceedings at meetings of the Society 802

Reviews—
' *Meteor' Forschungsergebnisse*, G. Dietrich (Ed.) (J.N.C.); *Cloud Atlas – an artist's view of living cloud*, Yozo Itoh (M.K.) 804
